

Gold Goes Green: LEED Certified Buildings

100% of office buildings renovated or constructed in the Golden Triangle since **2010** are **LEED certified**

This compares to **26%** of new office buildings in the rest of D.C.

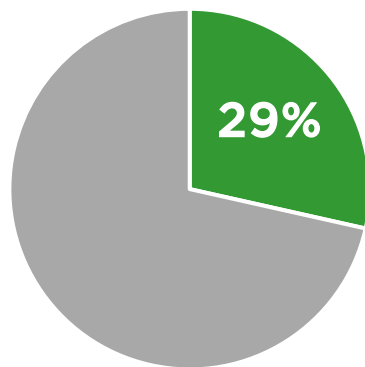

10 Golden Triangle buildings are **LEED Gold or Platinum**

LEED buildings account for **15.9M square feet**, almost **half** of the BID's total office space

The headquarters of the US Green Building Council (USGBC), which oversees the LEED program, are located at 2101 L Street NW in the BID. It's LEED certified, of course!

29% of Golden Triangle office buildings have LEED status, versus 7% DC-wide. LEED buildings use 25% less energy and have 19% lower operating costs than non-LEED buildings.
